INTRODUCTION

What is Posh Pile®?:

Posh Pile® Ultimate Luxury car mats were created by an avid car enthusiast. He went to hundreds of car shows globally for ten years while launching the leading brand of car care products from the U.S.A. He found his factory mats wore out in one to two years. Because there were no higher quality mats available for car enthusiasts, he created the Posh Pile® brand. Our brand has expanded to offer the very highest quality car mats, interior, and car detailing accessories drawing on our founder's knowledge of car detailing and his quest for the very best!

According to Webster's New World Dictionary, Posh Pile® is defined as:

Posh: adjective: luxurious and fashionable

Pile: a soft, velvety raised surface of yarn loops, often sheared, as on a rug

FREQUENTLY ASKED QUESTIONS

How can I know if Posh Pile® mats will fit my car?

Posh Pile® has an application guide on pages 12 to 18. For the latest up-to-date version, log on to our website at: www.poshpile.com.

- Our universal carpet mats fit **over 90%** of vehicles tested
- Our Weather Fortress™ rubber mats fit **over 99%** of vehicles tested

Please understand that universal mats are designed to fit the majority of passenger cars, MPVs, light trucks, and SUVs. As such, they are a compromise and in some cases they can be a bit narrower than the original factory mat.

Do I need universal or direct fit mats for my car?

The truthful answer is: *it depends.*

If you have a car with a floor mounted accelerator pedal like a Mini or most BMWs, then you need a direct fit mat.

- Over 80% of today's cars have the accelerator, brake pedal, and clutch hanging from the dashboard, so universal mats with the right "cut" can fit most cars nicely.

If you have a typical two or four door passenger car, most likely, a universal mat will fit your car.

- Universal mats can save you anywhere from 30-80% compared to the cost of direct fit mats from a car dealer!

Two Examples:

Dashboard mounted gas pedal

Floor mounted gas pedal

Posh Pile® Direct Fit Mats in a 2010 Mini Cooper (R56)

Why use Posh Pile® mats?

Our mats will upgrade your interior by offering a thick, new luxury look. They also protect your interior from grease, oil, road tar, and even wear and tear.

There's three types of Posh Pile® carpet mats, what's the difference?

5TH Avenue™
Our very best, most luxurious car mat

Pacific Coast Highway™
Our full-featured luxury mat at a value price

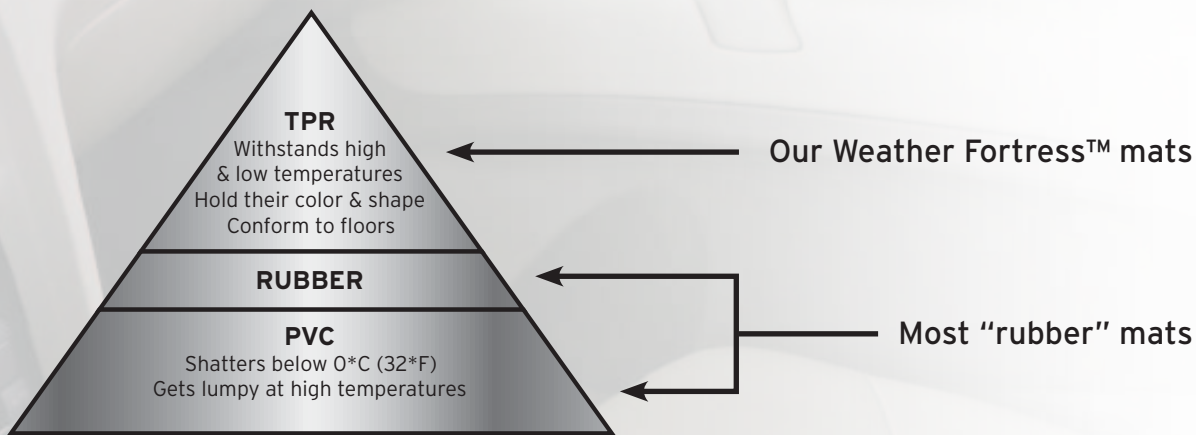

Stay Tuned™
Innovative hook and loop mat pioneered in Japan for high performance & better fuel economy

Why do rubber car mats smell?

Real rubber smells, but most rubber car mats aren't actually made of rubber. PVC is the most common material, which sometimes can have a really strong odor. Posh Pile® mats do not have any bad rubber smell because they're made of advanced TPR, thermoplastic rubber.

What makes the best rubber mat?

It's all about the material. PVC is the lowest quality, while synthetic rubber materials like TPR (thermoplastic rubber) are the highest quality available for rubber mats.

How do I trim my Weather Fortress™ mats?

Simply use a pair of scissors to trim just outside of the secondary raised lip for a great looking custom fit mat!
